

Pairing with Windows 7 PC

1. Turn on Nora/Max. A blinking green light means it's ready to connect.

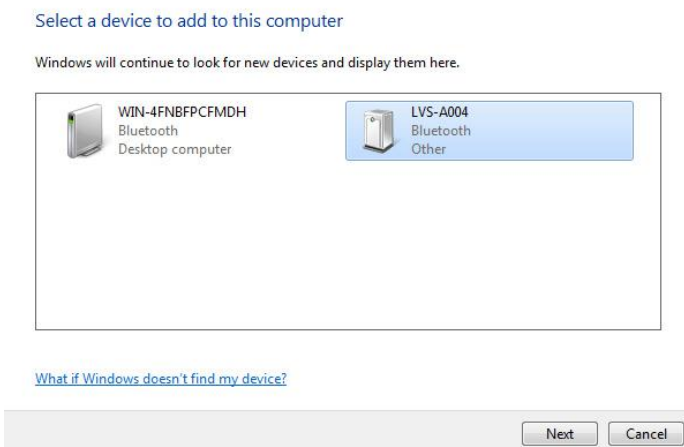

2.1. Double-click the Bluetooth icon.

2.2. Click on "Add a device."

2.3. Select the device that starts with "LVS-" (or "Other") and click "Next."

2.4. Select "Enter the device's pairing code."

Select a pairing option

- Create a pairing code for me
The device has a keypad.
- Enter the device's pairing code
The device comes with a pairing code.
Check for one on the device or in the device manual.
- Pair without using a code
This type of device, such as a mouse, does not require a secure connection.

2.5. Enter the pairing code "0000" and click "Next."

Enter the pairing code for the device

This will verify that you are connecting to the correct device.

0000

The code is either displayed on your device or in the information that came with the device.

2.6. Now, the toy should be connected to your computer.

This device has been successfully added to this computer

Windows is now checking for drivers and will install them if necessary. You may need to wait for this to finish before your device is ready to use.

To verify if this device finished installing properly, look for it in [Devices and Printers](#).
