# Pairing with Windows 7 PC

1. Turn on Nora/Max. A blinking green light means it's ready to connect.

2.1. Double-click the Bluetooth icon.

2.2. Click on "Add a device."

2.3. Select the device that starts with "LVS-" (or "Other") and click "Next."

2.4. Select "Enter the device's pairing code."

Select a pairing option

→ Create a pairing code for me
   The device has a keypad.

→ Enter the device's pairing code
   The device comes with a pairing code.
   Check for one on the device or in the device manual.

→ Pair without using a code
   This type of device, such as a mouse, does not require a
   secure connection.

How can I tell if my device has a pairing code?

Next   Cancel

2.5. Enter the pairing code "0000" and click "Next."

Enter the pairing code for the device

This will verify that you are connecting to the correct device.

0000

The code is either displayed on your device or in the information that
came with the device.

2.6. Now, the toy should be connected to your computer.

This device has been successfully added to this computer

Windows is now checking for drivers and will install them if
necessary. You may need to wait for this to finish before your device
is ready to use.

To verify if this device finished installing properly, look for it in
Devices and Printers.

Close

3.1 Open and log into the Lovense Remote app.

3.2 Click the 🔗 icon.

3.3 Tap "+" to begin searching. After toy is found, tap "Done". The light will stay on
to indicate it's connected. Your toy can now be controlled with your PC.
